

50 Million Rounds - A Call to Action

J.J. Johnson - Posted: 05.26.00

Attention Real American Men:

Like Millions of gun owners and second amendment activists around the country, a man from Idaho was as outraged as the rest of us of watching 40,000 people parade themselves around a mall in Washington. The irony of it all, was to watch (on global television) while these "americans" were cheering and jeering, praising people (who hypocritically hire armed bodyguards,) and being told why everyone else should be disarmed. A march of mothers so mis-informed, that I doubt few of them even know what a gun show "loophole" is, or have ever been to a gun show in the first place.

This letter, this Call to Action - is for those of us who have.

What made matters worse was when these mothers, and their lying cohorts decided to continue their demagoguery in hopes of making sure our children have no way to defend themselves, and we have no means to protect our families from harm.

Men, we have a job to do.

We have taken a continual assault on this precious liberty - the right of self defense with almost nothing standing in their way. Yet we are told that we must always be humble; above reproach, and never do something that would make us look too "radical."

Yet, nobody has ever defined what being "radical" is. Just another meaningless term used to demonize us all. So, we watch as those who claim to defend our right to keep and bear arms remain on the defensive, trying to deny the false claims made against them and us. Those that wish to ignore the second amendment claim repeatedly, "we're doing it for the children."

Mothers: It takes two to tango. Those are our children, too.

And as husbands, fathers, brothers, gun owners, and yes - Real Americans, it is our duty to make sure that our families remain safe from criminal behavior, no matter how much "authority" that criminal has been given - even by other criminals.

You see, we will do this for OUR children.

The right of each of us to be secure in our persons, houses, our papers, and our effects, is not something that is to be negotiated away for mere political expedience or a false sense of security. Nor shall the right to defend these principles against aggressors be tolerated. Recently, ranchers in Southern Arizona have demonstrated the true purpose of the Second Amendment - to repel invasion, to suppress insurrection, and to uphold the laws of the land. Our hats are off to them. Men, if we do not stand together, recent history has shown that we most certainly will hang separately.

No more tolerance, no more compromises, and no surrender.

Jeff Head has begun a campaign to respond to the May 14 debacle in Washington DC by showing those who wish to usher in a Fourth Reich what Real Americans can and will do to the meet their challenge. His proposal: Send no less than 50 million, high-speed projectiles down

firearm ranges across this nation. This is where the challenge begins.

He asks not for us to travel to Washington, but to stay home. Not to cower under the pressure of "political correctness," but to stand and be counted. We here at the Sierra Times stand in proud support of his efforts, as well as of those who will join him in this - the ultimate statement to Washington by the Real Men of America.

Men, the time has come to stand up and fight back.

There has been much controversy over how to send a message to Washington this Father's Day and beyond, but no controversy should weaken our resolve. No disagreement shall compromise our determination. No quarrel shall remove us from our mission to stop the madness from the Potomac. We must be prepared to carry this battle even into the next generation and beyond.

Therefore, SierraTimes.com proposes a manner in which to send a clear message to Washington, D.C on June 18th, 2000. We propose saving the empty brass for a rainy day, and delivering an additional message - something that they will not forget, and cannot ignore...

We submit that Father's day, June 18th, 2000 be dedicated as "Take Junior to the range day." That's right, Mothers. We're taking the day off. Not only are we taking the guns, but we're taking the cameras, too. And since the federal government insists on cataloging each one of us, we're going to give them what they want.

Sierra Times, in an effort to support the 50 Million Round March, will have e-mail addresses and a mailbox dedicated to photos of fathers with their sons and daughters - at the gun range. We want Junior learning how to handle this arsenal of liberty safely and effectively (see rules below).

Of course, you Second Amendment Sisters are cordially invited.

Sierra Times calls on every pro-gun news site and other web site willing to participate in establishing a 50 Million Round Gallery - photos of Real Men from around the country with their lawful weaponry and their progeny who will keep and bear them - regardless of any act passed from this point forward.

After all, Mothers: You said you wanted the children to be safe. We're giving you what you asked for.

The goal of Sierra Times in support of the 50 million round March: 100,000 fathers and their children together on Father's day at the gun range. An Internet Gallery of Armed Americans - and their children. A message Washington will never forget - and can't ignore.

Photography Rules:

- 1) Gallery Submissions begin June 19, 2000.
- 2) All photos must be in .jpg format or mailed (standard photo size) to the addresses specified.
- 3) One photo per family, please.
- 4) Names are NOT required - only name of range and state unless on private property.
- 5) Photos of illegal, abusive or immoral scenes or activity will be discarded without notice. Yeah, we're going to be picky.
- 6) Use your best judgement in the kinds of firearms you display. To put it simply, folks: If you

don't want the world to know you own it, don't send us a photo of it - for your own good. And we don't need to see your entire arsenal.

7) Remember: if you made it through an FBI background check, or filled out that yellow form, they've already got your name and number. But don't send anything you're not comfortable with.

8) Wanna hint? You and your children don't have to get photographed with your OWN guns.

9) Photos of Junior's muzzle flash gets first dibbs.

10) A good example is shown below. Safety first, Brothers. Happy Father's day!

Let's Rock and Roll!
